## QUALITY POLICY

Constructex Ltd recognises the importance of ensuring consistent quality in the products and services it provides. Our management system will ensure compliance with our statutory and regulatory obligations. We will achieve customer satisfaction by continually improving processes, products and services to ensure they consistently meet or exceed requirements.

The corporate objective is to achieve long term profitability by providing a range of specialist diving, civil and marine construction works or services, and engineering design, inspection and appraisal which conform to specified requirements.

It is the policy of this company to develop and use effectively, systems and procedures, which will assist in achieving high quality standards across the company.

Managers and Supervisors are required to establish and maintain standards as outlined in the Integrated Management System to ensure that work for which they and others are responsible meets requirements of the Integrated Management System and applicable work standards.

All personnel within the company are required to perform their duties in compliance with systems outlined in the Integrated Management System and / or referred to in project specific procedures.

Any disputes concerning the standards of implementation or achievement of this Quality Policy are to be referred to the Director for appropriate action.

The company will measure its quality performance by various metrics as outlined within the Integrated Management System accredited to ISO 9001:2015. These will be updated as required or if improvements are practicable to maintain the competitiveness of its offering.

This policy will be reviewed annually or sooner if changes are necessary to ensure that the management system is effective, compliant, consistently implemented and continually improved.

Signed:   
WILLIAM EVANS, DIRECTOR
